

ALOS-2 Data Sales Promotion Implementation Guidelines

Thank you very much for considering the ALOS-2 Data Sales Promotion (hereinafter referred to as the "Promotion"). Please read the details of the promotion, terms of use, and precautions described in these guidelines.

《Implementation details》

The following three products will be sold in this promotion.

Item name	Selling price (excluding tax)	Purchase limit per end user
Archive 10 Scene Package	JPY 1,250,000/pack	Up to 10 packages in total
* Trial Archive	JPY 20,000/scene	Up to 2 scenes in total
* Trial Tasking	JPY 80,000/scene	

*Only for customers who are using ALOS-2 data for the first time

Sales period: From September 2, 2024 till January 31, 2025

(Trial Tasking will be made until January 16, 2025.)

Data for sale: Only ALOS-2/PALSAR-2/Stripmap modes are eligible.

For sale:

Individuals, private companies, local governments, government agencies, research institutes, educational institutions, etc.

How to use: Please contact us using the inquiry form below.

<https://alos-pasco.com/alos-2/lp/en/>

In addition, when placing an order for archived data, there is a procedure on our satellite data utilization promotion platform (hereinafter referred to as "PLATFORM"), so if you open an account (free of charge) in advance, the subsequent procedures will be smooth.

PLATFORM URL : https://satpf.jp/spf_atl/?lang=en

《Precautions common to all products》

1. Regarding the use of multiple users, the selling price will be different from the stated price. Please contact us if you are considering for multiple user license.
2. We cannot accept the cancel of purchase order after you have submitted the order.

3. This offer cannot be used in conjunction with other promotions, package prices, or other discounts.
4. At our discretion, we may terminate the sale of part or all of the product without waiting for the promotion deadline.
5. If there is large number of orders, it may take longer than usual to provide the data. Please place your order in advance with plenty of time in your schedule.

《About the Archive 10 Scene Package》

1. This package will be available at a lower price than usual by ordering the ALOS-2 archive in units of 10 scenes.
2. This package is for archived data only and cannot include tasking.
3. The maximum number of purchase order is 10 packages (100 scenes in total) per end user.
4. We cannot accept the cancel of purchase order after you have submitted the order. Please make sure that the necessary archive data is on the PLATFORM before submitting a purchase order.
5. After submitting a purchase order, please place your order for archived data to our PLATFORM. The deadline for placing the order to the PLATFORM is by February 15, 2025, and we will not be able to refund scenes that have not been placed by then, even if you have already submitted the purchase order.
6. If there are no alternative scenes for scenes that could not be produced due to data corruption after entering on PLATFORM, we will refund the price for the number of scenes that could not be produced or reduce the amount from the invoice amount.
7. If you are a first-time purchaser of ALOS-2 data, you can apply for this package and a trial archive / trial tasking at the same time.

《Trial Archive/Trial Tasking》

1. This product is only available to end users who have never purchased ALOS-2 data before.
2. You can freely combine archived data and new observation data and order up to a total of 2 scenes during the promotion period. (It is also possible to order only one scene).
3. We cannot accept the cancel of both archive and tasking after you have submitted the order.
4. Regarding archived data, please confirm in advance that the necessary archive data is on the PLATFORM before placing an order.
5. For archived data, please place your order to our PLATFORM after submitting the

order. The deadline for placing the order to PLATFORM is by February 15, 2025, and we will not be able to refund scenes that have not been placed by then, even if you have already submitted the purchase order.

6. For new observations, we will conduct a feasibility study prior to placing an order. Please note that depending on the results of the survey, such as when the feasibility study result is extremely low, we may refuse your order.
7. The deadline for submitting an order for tasking observation is by January 16, 2025 (before the observation deadline of January 31). In addition, the deadline may change without notice, so please submit your order as soon as possible.
8. If the tasking you ordered was not adopted, you will be able to request a recovery observation until January 31, 2025.
9. If the new observation is not adopted, or if the observation is not recovered by January 31, 2025, the amount for the number of rejected scenes will be reduced from the invoice amount or the order will be canceled.
10. Customers who are eligible for the order of the trial archive / trial tasking can also apply for the archive 10 scene package during the promotion period, regardless of whether they submit an order this product or not.

《Other precautions regarding orders and ALOS-2 data in general》

1. By purchasing ALOS-2 data, you agree to the ALOS-2 Product License Agreement, so please check the contents in advance.
https://alos-pasco.com/en/uploads/ALOS-2_EULA_en.pdf
2. The footprints provided by the PLATFORM and our feasibility studies, etc. are for reference only and may differ from the actual observation range. Please understand this point before placing an order, especially if the AOI is close to the outer edge of the planned observation area.
3. Payment will be requested to be made in advance unless you already have an agreed payment term with PASCO or your agent. If you wish to pay later, you will need to be consulted by PASCO in advance, so please contact us in advance (it will take about 1~2 weeks after you contact us with the necessary information).
4. In addition, please also check the terms and conditions of sale described in our satellite data utilization promotion platform.
